

Calgary Work Integrated Learning Pilot Project

May 2023 Updates

BUILDING CALGARY'S TALENT BY CONNECTING EDUCATION TO WORK EXPERIENCE.

Project Highlights

- To date, over 100 employers have engaged with the Calgary WIL team.
- 14 Calgary WIL summer students started and are already making contributions.
- We celebrated our first returning portal user this month.
- 8 out of 14 flagged portal issues have been solved.
- 14 process maps have been completed and received positive feedback from post-secondary partners.
- The TalentED YYC website is live and can be found at talentedyyc.com
- We are continuing to attend employer related events to expand our reach and increase WIL awareness and opportunities.

Overall, the WIL project is well underway, and our team is working hard to create resources and support those businesses looking to partake in the WIL project. We plan to expand awareness about TalentED YYC in June by launching a LinkedIn account, blog, and e-newsletter!
